Problem Summary

Our patient aged 23 years had a week eyesight from childhood. Patient had a Lasik eye surgery done in 2015 for correction of high myopia.

After that she was suffering from the side effect vainly dryness in eyes. She was taking allopathic medication it didn't help her to cure completely.

From start of 2020, she started experiencing bad inflammation in eyes. Inflammation is what causes dryness in the first place.

Her day job basically involves working on laptop for 7 hours at least. It became impossible for her to stare on digital screen because that makes the issue worse.

Clinical Impression

Severe dry eyeness, eye inflammation, swelling in the eyes, severe headaches, heavy headness and redness in the eyes.

Our Alternative Therapy Solution

We provided her 3 cycles of 21 days Reiki Distant healing.

In the first month, her headache vanished and she started feeling light headed

But moving through the third cycle of Reiki, her eye inflammation was lowering and she was able to work on digital screen without getting any fatigue, swelling, redness, dryness vanished in the 3d cycle of Reiki. (63 days of healing. Duration of the daily healing 15 minutes per day) Totally we have given her 15.75 hours of Reiki distant healing.

What is Reiki Distant Healing?

Reiki distant healing is a beautiful concept. A patient can be across any part of the globe and healer can be at any part of the globe. It is actually called alpha mind state of the healing. It works on quantum physics theory. Dr Max Planck from Germany a quantum physics Nobel prize winner has done lot of research in this field and he has concluded that Reiki distant healing works on quantum physics theory.

Additional Information

We are currently successful in healing stage 4 cancer (critical cases) using Reiki Distant healing. Till date, we have healed 6 stage 4 cancers. (Throat, Breast, Liver, PMP/Large Intestine, Mouth, Bile Duct cancers)

Final Conclusion

Once the healing completes, patients needs to practice self healing method throughout life time to maintain the health of the organ or heal the disease completely or to avoid the same diseases recurring again.
